MISHacks Episode 1

Quick Rulebook + Submission Guide

What It Is

Online AI x STEM hackathon. Build a useful AI-powered STEM project for a real community you know.

Dates

Hacking runs May 22 - June 6, 2026. Final submissions are due June 6, 2026 at 11:59 PM EDT.

Join

Register your team through the website form. Entry is $5 per person. Teams may be solo, 2 people, or 3 people.

Prompt

Build an AI-powered STEM application that makes a meaningful difference for a community you know. Strong projects show a real user, real STEM thinking, and responsible AI use.

Tracks

Community Impact. Education & Access. Health & Environment. Wildcard.

Rules

Open to current high school and undergraduate students. Projects must start on or after May 15, 2026. AI and a real STEM domain are required. Credit open-source libraries and public APIs. Judges and organizers may not compete.

Submit

Email submissions to kevinz09302009@gmail.com or bazarirhythm@gmail.com by the deadline.

Submission Checklist

Include a 3-minute max demo video link, public GitHub repository, 200-350 word write-up, team roster with names, grade/year, school, and selected track.

Write-Up

Answer: Who are you helping? What problem are you solving? How does the AI work? What STEM domain is involved? What are the current limits?

Video Tips

Start with the problem. Show the product working. Explain the AI clearly. End with impact and next steps.
